Paper City

Pocket

What is it

Paper City is a paper pop-up you can insert into the new Moleskine Postal notebooks or Note cards in order to personalize your messages, greetings, toughts.
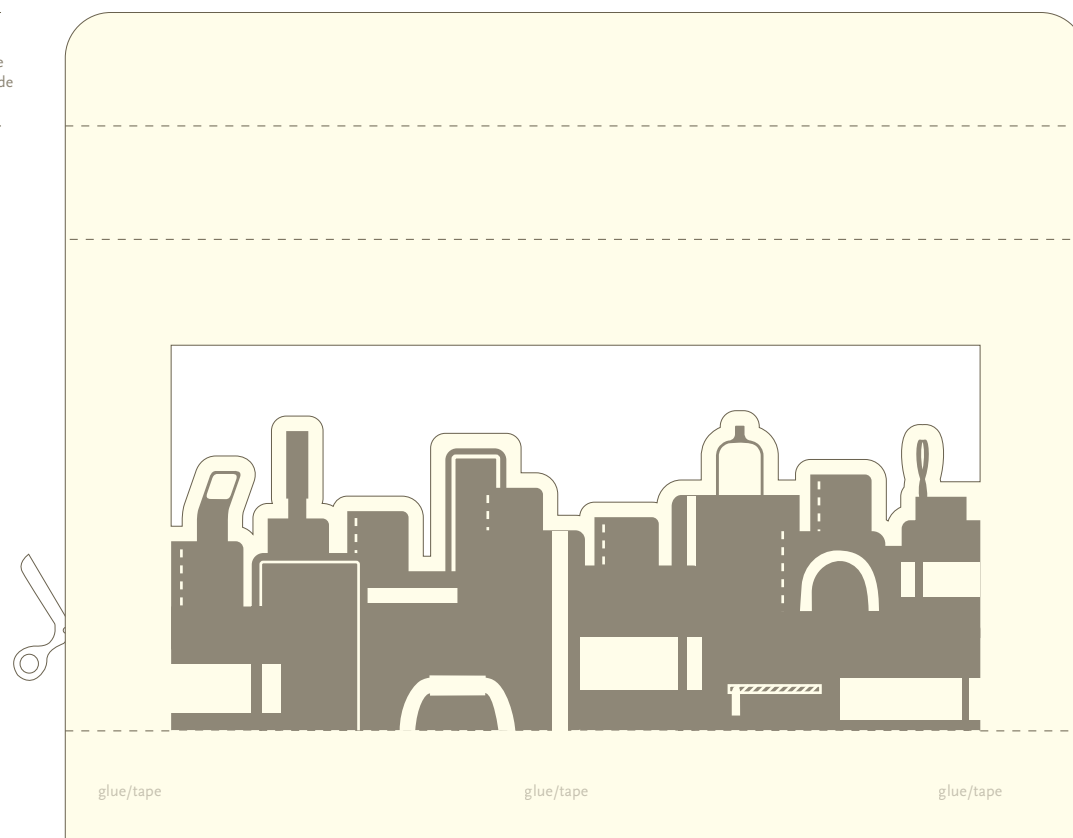

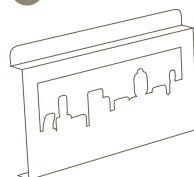

You may need

≥ 200 gr.

How to build it

1. Print the pdf file

2. Cut it along the solid lines ——

3. Bend it on the dashed lines - - - - -

4. Attach the bottom side of the pop-up on the right page aligning it to the inner margin

5. Bend the pop-up flattening it on the right page. Bend the upper flaps on themselves and close the left page on the glued flap

6. The Postal Notebooks are slightly wider than the Note Cards. Be sure to attach the top of the pop-up so it stands up even if it is not flush with the edge
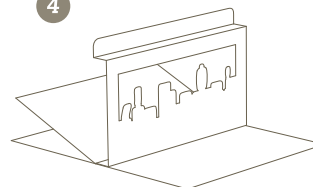

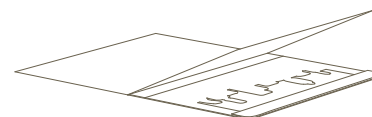

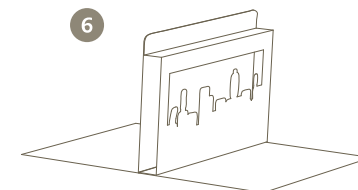

glue/tape on back side
