

Paper Caper

Paper Caper – Translator

What is it

The Paper Caper allows you to train your finger joints and experience at least ten minutes of geeky, hypnotic, memorable fun. The “Translator” Paper Caper can be used as a paper toy to play with alone or with your friends. Print it, build it, then hold the hexagon in two hands, push three corners down and in. Finally open the center as though it were a blossoming flower. The more you create, the more you will find yourself inspired and prepared to travel the world.

You can also use the “Translator” Paper Caper as a place card, a decoration to hang in your home, or for any other purpose that comes to mind. As far as we are concerned, folding paper is a free activity that should be enjoyed without any sort of restrictions.
